# 2022 SUMMER CYBERCAMPS

**MON-FRI / 9AM-3PM**

Bay Area Community Colleges are happy to be offering week-long CyberCamps this summer.

CyberCampers will learn about online hygiene and safety, technology ethics, infrastructure administration, security audits, cryptography, digital and network forensics, and web application exploitation. Campers will receive digital badges for contests and camp completion.

## SANTA ROSA JUNIOR COLLEGE

Camp presented virtually with Zoom and Discord  
Eric Skagerberg  
[eskagerberg@santarosa.edu](mailto:eskagerberg@santarosa.edu)

The Ideal Introductory CyberCampers are either current (2021 2022) 8th 12th graders or young community college students, with basic computer navigational skills and minimal cybersecurity experience. Intermediate and Advanced Campers will have taken the preceding camps

This project is supported by the National Science Foundation grant award #210021

Project funded through a BACCC Strong Workforce Program Regional Joint Venture
